

Navigation for Women with Breast Health Concerns

Webinar: March 11, 2014 • 12:00pm

Facilitator

Phyllis A. Nsiah-Kumi, MD, MPH

Medical Director, Women Veterans Health Care Services
Louis Stokes Cleveland VA Medical Center

Health literacy needs are especially apparent in complex conditions and health care delivery systems. The maze of tests, terms and providers can prove overwhelming for women with breast health concerns.

A patient navigation program focused on improving patients' ability to navigate breast health information and health systems is making a difference for women in Douglas County. Learn about it here!
